Accounting Processes Optimization

The right information at the right time so you make the right decisions

What is it?

A comprehensive review of your accounting processes and policies to ensure that you get the information you need to assist you in planning and operating your organization

How does it work?

We will:

- Gain understanding of...
 - Your business model
 - Your current planning and management approaches and styles
 - How you want to manage the organization
- Recommend improvements in your accounting processes to better fit your planning and management style and your business objectives, including...
 - Chart of accounts
 - Reporting structure
 - Information timing and flow
 - Document process flow
 - Measurements, especially Key Performance Indicators (KPIs)
 - Increase efficiency of your accounting system
 - Process design and control

How does the client benefit?

You will receive:

- An accounting system that improves the management of your organization
- The right financial information at the right time to make the right decisions
- Documentation of your accounting processes to ensure continuity as your personnel change
- Periodic reviews of your accounting processes to maintain maximum efficiency
- Periodic CFO-style reviews and analyses to ensure that you continue to collect and report the financial information that you need to optimize the planning and management of your organization
